

## REMARKS

Reconsideration of the subject application as amended herein is respectfully requested.

The Examiner has rejected the claims in view of the Matos reference. The Matos reference is a U.S. Patent application filed on August 22, 2003. The present application claims priority to two provisional applications filed on January 2, 2003 and April 28, 2003, respectively. The subject matter claimed here is described and supported by these provisional applications. Accordingly, Matos is not prior art to the present application.

An early notice of allowance is respectfully requested.

Respectfully submitted,

**GOTTLIEB, RACKMAN & REISMAN, P.C.**
